This program contains an unofficial list of candidates for graduation on May 12, 2013, and a list of graduates who received degrees in August 2012 and December 2012.

The list of May graduates is as accurate as possible. However, because of printing deadlines, names of some degree recipients may not appear, while names of degree candidates may appear even though they have not completed their degree requirements.

The University's official registry for conferral of degrees is the Office of the Registrar, 901 West Illinois Street, Urbana, IL 61801.

COMMENCEMENT

ONE HUNDRED FORTY-SECOND COMMENCEMENT | MAY 12, 2013

TO OUR GUESTS

Commencement is the culmination of the academic year. Today we recognize our graduates' accomplishments. We hope these ceremonies are an important and meaningful occasion for students, their families, and the faculty and staff. We offer you the following guidelines to enhance the dignity and ensure the smooth flow of the ceremony.

Guests are asked to withhold applause during the presentation and hooding of doctoral candidates. Please hold such applause until all candidates have returned to their seats.

As a service to parents with small children who may become restless during the hour-and-a-half ceremony, the proceedings will be broadcast in the hallways outside the arena.

Graduates and guests are asked to please remain seated until the end of the recessional.

Sign language interpretation is provided on stage. Guests who are hearing impaired may sit in Row 1, Section A31 of the Assembly Hall so that they may better view the interpreters. Graduates who are hearing impaired should sit as close to the front of their section as possible.

For your convenience, a first-aid station is located in Room 102 of the Assembly Hall.

BY THE AUDIENCE

O say can you see by the dawn's early light,
What so proudly we hail'd at the twilight's last gleaming?
Whose broad stripes and bright stars thro' the perilous fight,
O'er the ramparts we watch'd were so gallantly streaming!
And the rocket's red glare, the bombs bursting in air,
Gave proof thro' the night that our flag was still there.
O say does that Star-Spangled Banner yet wave,
O'er the land of the free and the home of the brave?

BEST WISHES TO THE CLASS OF 2013!

On behalf of the trustees of the University of Illinois and the 11 million residents of our state whose best interests we represent, I want to congratulate all of you in the Class of 2013.

In the future, when historians write about our time, I hope it will be about you as students and your actions as graduates and about your contributions to our state as alumni.

I hope you are proud to be here today, proud to be at the University of Illinois, which is the greatest institution of its kind in the United States.

Nothing is more important to the future of Illinois, our citizens and communities, the health of the economy of this state, our quality of life and the competitive positioning of this state on the national and global stage than is the University of Illinois.

All of you who are graduating today must be relentless voices for excellence and for the notion that we should be the best in the world at what we do.

We must protect and preserve the pride which everyone who has been associated with the University has in that association.

Today, you join the ranks of the largest alumni associations in the world.

We want you active, and we want you involved. You have a great legacy, and, together, we can build on it.

If you have ideas, reach out to your college Dean, the Chancellor, the President, the Alumni Association, or the Board of Trustees.

We all look forward to working with you.

Christopher G. Kennedy
Chair of the Board of Trustees

CONGRATULATIONS TO THE CLASS OF 2013!

Just a few short years ago, you were sitting in the Assembly Hall, listening to convocation speeches and looking ahead to a tomorrow that was unlike any you'd faced before. In some ways, it probably seems like yesterday; in others, a lifetime.

Your years on this great campus have prepared you for a lifetime of success and happiness, and as you head off today to begin that next chapter, I hope you take time to reflect on everything you've accomplished and how much you've grown.

Your time here has truly been transformative – uniting your talent and passion with the U of I's world-class faculty and academic programs to unlock the doors to your dreams. It has transformed the arc of your lives, which will be forever guided by the broad-based knowledge, critical thinking skills, and sense of purpose that you nurtured here.

Tomorrow, you again face a future of new opportunities and new challenges. But you and the nearly 12,000 other members of the Class of 2013 have proven that you are ready to make your mark in our world's rapidly changing workplace.

Remember the commitment and hard work that brought you here today. Remember everything you have learned. Remember that education is a journey that unfolds for a lifetime. And remember the example of the more than 430,000 alumni who have shown the heights that are within reach with a U of I degree.

Today, we celebrate you, Class of 2013, joined by the proud family and friends who have supported you along the way. Enjoy your day, and come back often. Like the lessons you learned here, your bond with the University of Illinois lasts a lifetime.

Robert A. Easter
President

CONGRATULATIONS TO ALL OF OUR GRADUATING CLASS OF 2013!

This Commencement is your day at the University of Illinois at Urbana-Champaign. We come together to honor your accomplishments, in and out of the classroom. All of us on the faculty and staff are proud of your hard work and the determination and discipline you have shown. And we are so excited to see where your Illinois experiences will take you.

I also offer my congratulations to all of you who helped guide these new graduates through to this day. Family, friends, mentors – you all had a part in this journey. Thank you for standing behind your loved ones, for lifting them up – for being there along the way.

Commencement may be an academic culmination for you as graduates but it is also a starting point for the next steps in your careers and lives. I'm confident your experiences at Illinois have given you a solid foundation for those steps.

Four years ago, the Class of 2013 gathered in this same building for your Freshman Convocation. And on that hot, humid morning, you were welcomed to Illinois by Leon Dash, a Pulitzer Prize-winning professor from our journalism department. In his remarks he said that you, as a class, would determine what our entire community would become during your years on campus. What we would accomplish together and the environment in which all of us would live and work would be guided by you. Looking around the campus, it is clear to me you have done good work. You have been neighbors, friends, citizens and leaders on the campus and beyond.

I want to repeat Professor Dash's message here today. Your geography may be changing, but your responsibility to your world is not. You remain the ones with the power to shape your community – locally, nationally and globally. Just as you did at Illinois, I ask you to engage in the world. Be active citizens, not passive observers. Use your skills, your knowledge and your passion to make an impact. This is how we at Illinois have always measured our success as a university.

The high expectations we placed on you as students do not end with Commencement. They grow. But, you won't face your challenges alone. You are a member of the Illinois family now, with one of the largest alumni networks in the world. I hope you stay connected to your fellow alumni and that you remain a friend, advocate and supporter of your Alma Mater.

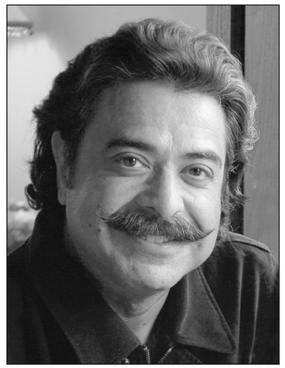
Today, you join a legacy that goes back to 1867. This is a place of legends and giants in every field. We are a university with a reputation for brilliant ideas that change the world. This, today and forever, is your university.

Congratulations, graduates. You make us all proud.

Phyllis M. Wise
Chancellor

Commencement Speaker

SHAHID R. KHAN
Class of 1971
President, Flex-N-Gate Corporation



Shahid R. Khan moved to the United States from his native Pakistan at the age of 16. While still an undergraduate engineering student at Illinois, he began working for Flex-N-Gate Corporation in 1970. After earning his bachelor's degree in engineering, he left Flex-N-Gate to start a new venture, Bumper Works, designing a lightweight, seamless bumper that became popular as an aftermarket part. Purchasing Flex-N-Gate in 1980 gave Mr. Khan a chance to become an original equipment manufacturer, and his seamless bumper became the industry standard. Flex-N-Gate grew into an international supplier for all of the major automotive manufacturers in North America, Japan and Europe.

Mr. Khan also recently started Bio-Alternative LLC, which specializes in biofuels research and development, and he serves as president of the Chief Executives Organization, a global community of top leaders in business, government and non-profit sectors.

He and his wife, Ann, are deeply committed philanthropists, giving generously to the University of Illinois and the surrounding community. Mr. Khan has served on several U. of I. boards, including the President's Council and the U. of I. Foundation board of directors. He has received distinguished service awards from both the U. of I. Alumni Association and the College of Engineering, where he is an inaugural inductee into the Engineering Hall of Fame.

Mr. Kahn created the Khan Foundation in 2007 to expand nationwide research in the applied health sciences. In 2011, he was honored as a Lincoln Laureate by the state of Illinois.

Mr. Khan recently purchased the Jacksonville Jaguars team in the National Football League.

Honorary Degree Citations

JAMES A. THOMSON
Honorary Degree of Doctor of Science

James A. Thomson, teacher, researcher, administrator. You are an international leader in biomedical research. You are one of the world's most creative and productive scientists in the area of stem cell culture and derivation. Your pioneering work to isolate and understand human embryonic stem cells has given researchers unprecedented access to cellular components of the human body, with applications in basic research, drug development, and transplantation medicine.

Your research has been, and continues to be, groundbreaking. Your 1998 manuscript, "Embryonic stem cell lines derived from human blastocysts," ignited a revolution in human biology and biomedical sciences, shedding light on the fundamentals of human development and the formation of diverse cell lineages.

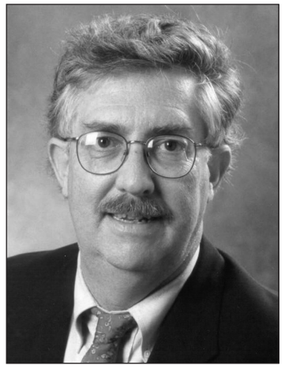
In 2007, you realized another milestone and thrilled the scientific community when your team was able to reprogram adult skin cells to an embryonic state. This milestone enabled stem cell research without the use of human embryos. You continue to explore embryonic stem cells' pluripotency, how these cells transform into another type of cell in the body, and how the process of transformation unfolds.

In appreciation of your work to isolate embryonic stem cells – first in non-human primates, and then in humans themselves; and to understand how stem cells attain pluripotency; and to develop pluripotent cells from sources other than human embryos; and upon the recommendation of the Senate of the Urbana-Champaign campus, it is an honor to present you to the President of the University for the honorary degree of Doctor of Science.

Presented by: *Herbert A. Whiteley, Dean of the College of Veterinary Medicine, University of Illinois at Urbana-Champaign*

Honorary Degree Citations

FRED ROBERT VOLKMAR
Honorary Degree of Doctor of Science



Fred Robert Volkmar, author, teacher, researcher, administrator. You are a world leader in understanding and treating autistic spectrum disorders. You have made extraordinary contributions to understanding the fundamental nature of autism and have been a leader in creating the recent, rapid increase in scientific understanding of these disorders.

You are a leading researcher in this area, tackling such key issues as seizure disorders in autism and the association between autism and schizophrenia. You played a major role in developing new approaches to measuring eye gaze as a feature of social interaction. You showed that a lack of social skills in autistic children is due to neurologic causes. You have authored and edited many of the classic books in your field, and you co-wrote the first widely distributed book on Asperger's syndrome.

You have led the way in every aspect of work needed to address autism, both in children and adults, including treatment, research, publication, policy making, advocacy, and teaching. Those you have trained have become clinicians and researchers throughout the world.

In appreciation of your work to understand, detect, and treat autistic spectrum disorders, and your leadership in both creating knowledge and training the next generation of scholars, and upon the recommendation of the Senate of the Urbana-Champaign campus, it is an honor to present you to the President of the University for the honorary degree of Doctor of Science.

Presented by: *Ruth Watkins, Dean of the College of Liberal Arts and Sciences, University of Illinois at Urbana-Champaign*

Alumni Association Awards

WILLIAM A. EDELSTEIN
University of Illinois Alumni Achievement Award

William Edelstein is honored for his pioneering research in the field of magnetic resonance imaging (MRI). As a postdoctoral student at the University of Aberdeen in Scotland, Edelstein was the primary inventor of the revolutionary "spin warp" imaging technique, which is still used in all commercial MRI systems. Later, as a researcher for General Electric, he and his colleagues continued to refine MRI technology in numerous ways, including creation of the first high-field head image and development of techniques for taking detailed, composite images of smaller portions of the body, such as the spine. Several years after retiring from General Electric in 2001, Edelstein accepted an appointment as a visiting distinguished professor of radiology at Johns Hopkins University School of Medicine, where he is exploring methods for shortening the duration of MRI scans and reducing high-level acoustic noise. He is a Fellow of the American Physical Society, the Institute of Physics (UK) and the International Society of Magnetic Resonance in Medicine, which awarded him its Gold Medal Prize in 1990. Other honors include the 2005 Industrial Applications of Physics Prize from the American Institute of Physics and the 2008 Alumni Achievement Award from the University of Illinois College of Liberal Arts and Sciences, where Edelstein completed a bachelor's degree in physics in 1965.

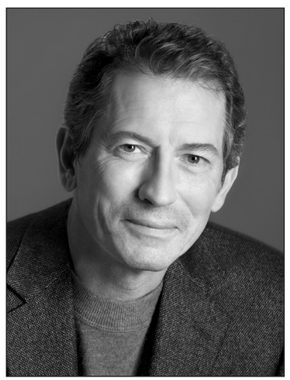
CHRISTIE L. GILSON
University of Illinois Alumni Humanitarian Award

Christie Gilson is honored for her outstanding work as a global advocate for individuals with disabilities, having achieved a rare level of international expertise early in an academic career. A 2006 Fulbright Scholar and faculty member at Moravian College in Bethlehem, Pennsylvania, Gilson maintains a passion for higher education and the welfare of the world and has used her knowledge to improve educational and workplace opportunities for people with disabilities across the globe. Her efforts have included using Voice over IP (VoIP) technology to teach English to blind adults in China and the mentoring of youth with disabilities in Germany, Hong Kong, Singapore, Spain, Taiwan and the United States. Gilson advises course management software companies on improving their accessibility to users with disabilities and has helped establish learning accommodations at institutions of higher education. A sought-after speaker in the U.S. and abroad, she continually encourages students, educators and community members to re-examine the language they use and the perspectives they have about people with disabilities. In March 2012, President Obama appointed her to a three-year term on the J. William Fulbright Foreign Scholarship Board. Gilson completed a master's degree in social work at Illinois in 2001 and received a doctorate in special education from the College of Education in 2008.

MARY KAY KRETCH HABEN
University of Illinois Distinguished Service Award

Mary Kay Kretch Haben is honored for exemplary volunteer leadership and service to the University of Illinois Alumni Association, the UI Foundation and the College of Business. Haben – who retired in 2011 after a successful 33-year career as a marketing executive for two iconic Chicago corporations, Kraft Foods and the Wm. Wrigley Jr. Company – has been extraordinarily generous in sharing her time, expertise and financial support with her Alma Mater. She is a past chair of the Alumni Association Board of Directors, currently serves as a board member for the UI Foundation and plays an active part in the UIAA's Illinois Connection advocacy network. A former member of the Dean's Business Council, Haben also served on the college's steering committee that raised funds for the state-of-the-art Business Instructional Facility. A 2000 Illini Comeback Guest who has been repeatedly honored by her industry and community, she frequently returns to campus to speak to students, most notably as the 2002 College of Business convocation speaker, the 2008 Leighton Lecturer and a panelist for the "Women in Business" roundtable series. Haben and her spouse provide generous financial support to the College of Business and to Illinois Promise, a scholarship program for low-income, high-achieving students. She received a bachelor's degree in business administration from the College of Business in 1977.

THOMAS M. SEIBEL
University of Illinois Alumni Achievement Award



Thomas Siebel is honored for his leadership in defining the computer software industry and helping to create what is universally known today as Silicon Valley. Chairman and chief executive officer of C3 Energy, a software company that helps reduce an organization's carbon footprint, he previously founded and led Siebel Systems, one of the world's leading business software companies, which merged with Oracle Corporation in 2006. In addition to his entrepreneurial vision, Siebel is recognized as one of the world's top philanthropists, having created The Siebel Foundation and The Meth Project Foundation to improve education, scholarship, community life and prevention of teen drug use. He continues to generously support the University of Illinois, where he established the Siebel Center for Computer Science and endowed two professorships. The recipient of the UI Board of Trustees' Distinguished Service Medallion as well as the Presidential Award and Medallion, Siebel is a Lincoln Academy Laureate, member of the UI Engineering Hall of fame and director of Stanford's Hoover Institution. He earned a bachelor of arts degree in history from the College of Liberal Arts and Sciences in 1975, a master of business administration from the College of Business in 1983, a master of science in computer science from the College of Engineering in 1985 and an honorary doctorate of engineering in 2006.

University Honors

2013 BRONZE TABLET SCHOLARS

The University Honors designation, the highest academic honor awarded to an undergraduate, is limited to those students who have demonstrated their capacity for sustained academic excellence of a high order. To be eligible for this honor, students must have a cumulative grade-point average of at least 3.5 and must rank—on the basis of cumulative grade-point average—in the upper three percent of their college graduating class on the basis of all work taken through the academic term prior to graduation. As part of their formal academic attire, University Honors recipients wear orange and blue braided cords.

As recipients of this honor, each of the following students will have his or her name inscribed on a bronze tablet that is displayed in the corridor of the University Library. For this reason, University Honors recipients are known informally as “Bronze Tablet Scholars.”

2013 CHANCELLOR'S SCHOLARS

A four-year program open to undergraduates in all curricula, the Campus Honors Program fosters collaborative relationships between exceptional students and distinguished faculty through small courses, a faculty mentor system, and competitive summer research and travel grants. Admission is awarded to only 125 of the approximately 7,000 freshmen entering the University of Illinois Urbana-Champaign each year, plus about a dozen admitted as first-semester sophomores.

The following Chancellor's Scholars are this year's graduates of the Campus Honors Program:

RHEA LITA ABEL, Bachelor of Science in Business Administration, Marketing
GREGORY JOHN ALEXANDER, Bachelor of Science in Mechanical Engineering
BRADEN LEE ANDERSON, Bachelor of Science in Finance
BRYAN EDWARD ANDERSON, Bachelor of Arts in Liberal Arts and Sciences, Anthropology, August 2012
ADAM SAMUEL AUGSPURGER, Bachelor of Science in Liberal Arts and Sciences, Actuarial Science
CHRISTOPHER ANTHONY BALDWIN, Bachelor of Arts in Liberal Arts and Sciences, History
ALEKSANDER BOGDAN BAPST, Bachelor of Science in Materials Science and Engineering, December 2012
ANASTASIA ELENA BEIRIGER, Bachelor of Science in Liberal Arts and Sciences, Integrative Biology
LILY CLAIRE BENNER, Bachelor of Science in Food Science and Human Nutrition
MICHELLE CATHERINE BOEHM, Bachelor of Science in Mechanical Engineering
JESSICA HELEN BOLLOW, Bachelor of Science in Finance
ERIKA LAUREN BONGEN, Bachelor of Science in Liberal Arts and Sciences, Molecular and Cellular Biology
DANIEL JEFFERY BONISTALLI, Bachelor of Science in Bioengineering
DYLAN HENRY BORRENPOHL, Bachelor of Science in Bioengineering
DANIEL DUFFY BORUP, Bachelor of Science in Engineering Mechanics
DAVID KEPNER BROSCHKA, Bachelor of Science in Materials Science and Engineering, December 2012
CAROLINE MARIE BROWN, Bachelor of Arts in Liberal Arts and Sciences, Anthropology
DAVID PHILLIP BRUK, Bachelor of Science in Materials Science and Engineering
CAROLYN JEAN BUESING, Bachelor of Science in Kinesiology
DARIAN CHARICE BUROW, Bachelor of Science in Liberal Arts and Sciences, Psychology

Academic Dress

Academic dress, consisting of cap, gown, and hood, originated about the twelfth century and was worn primarily for warmth. Subsequently, the material of the gown and lining, and the shape of the hood, represented the economic, social and academic status of the wearer.

In the United States, the great majority of the academic costumes now worn are in accordance with the general provisions of the Intercollegiate Code of 1895, which was revised in 1932 and again in 1960. Under this code, the bachelor's gown has pointed sleeves, the master's gown has oblong sleeves with an arc at the bottom, and the doctor's gown has bell-shaped sleeves. Black is the traditional color for gowns, although at the University of Illinois at Urbana-Champaign, academic dress has been designed specifically for the Institution – blue gowns with orange accents and blue mortarboards.

The bachelor's and master's gowns are untrimmed. The doctor's gown is faced down the front with velvet and has three bars of velvet across the sleeves. The facing and bars may be black or blue, as is the case at Illinois, or may be the color of the subject to which the degree pertains. The bachelor's gown is worn closed; the master's and doctor's gowns may be worn open or closed.

The bachelor's hood is 3 feet in length; the master's, 3 ½ feet; and the doctor's, 4 feet. Hoods are lined with the official color or colors of the college or university conferring the degree. At Illinois, the lining is orange and blue. The colored velvet border of the hood, which is 2 inches, 3 inches, and 5 inches wide for the bachelor's, master's, and doctor's degree respectively, identifies the faculty or field of study to which the degree pertains.

The mortarboard cap is standard in the United States. Usually, all tassels are black, but where the bachelor's graduates do not wear hoods, as at Illinois, the color of the cap tassel indicates the department of study. Candidates for degrees wear tassels on the right front quadrant of their caps and move them to the left front quadrant after degrees are conferred by the president. Caps are considered a part of the costume and are customarily removed only during an invocation or benediction, and then by men only. The orange and blue braided cords worn from the left shoulder by bachelor's graduates signify University Honors.

For all academic purposes, including trimmings of doctor's gowns, edging of hoods, tassels of caps, and linings of banners, the colors associated with the different disciplines are as follows:

Agricultural, Consumer and Environmental Sciences, maize
Applied Health Sciences, sage green
Architecture, blue-violet
Aviation, copen blue
Business, drab
Education, light blue
Engineering, orange
Fine and Applied Arts, brown
Labor and Employment Relations, drab
Law, purple
Liberal Arts and Sciences, white
Library and Information Science, lemon
Media, crimson
Philosophy, dark blue
Social Work, citron
Veterinary Medicine, gray

Bronze medallions engraved with the University seal distinguish faculty members who are endowed chair holders and professors. Endowed chairs and professorships carry great prestige within the institution and are among the highest honors the University can bestow on prominent faculty members.

The trustees of the University are identified by their blue gown faced with blue velvet panels and three chevrons on the sleeve. The chevrons are outlined in colors representing the three campuses and are in order in which the campuses were established – Urbana (orange), Chicago (red) and Springfield (white).

The Jewel of Office worn by the president was presented to the University by the Alumni Association. It is emblematic of the office of the president and is worn at all formal academic ceremonies. On the gold collar, also worn by the president, are engraved the names of the presidents of the University and their years of service.

Caps and gowns were worn for the first time at the University of Illinois Commencement ceremony of 1897. In the early 1900s the Commencement procession marched up Burrill Avenue to the old Armory. After diplomas were received, the procession marched back to the lawn south of Green Street. The seniors sang the state song and "Auld Lang Syne" before they said good-bye to each other and the campus.
